

# CURRICULUM VITAE

Personal Information			
Name	Yaoqin Shen	Gender	Female
Position Title	Associate Professor		
Working Department	Clinical Veterinary Medicine		
Email	yshen@mail.hzau.edu.cn		
Address	No 1. Shizishan Street, Wuhan, China		
Tel		Fax	
Research Interest			
Equine Gastrointestinal Diseases Exotic pets and wildlife diseases			
Education & Working Experience			
Associate Professor, College of Veterinary Medicine, Huazhong Agricultural University Doctor of Veterinary Medicine, College of Veterinary Medicine, Kansas State University Bachelor of Science, College of Veterinary Medicine, Huazhong Agricultural University			
Publications			
1. Pei L, Liu J, Huang Z, Iqbal M, <b>Shen Y*</b> . Effects of Lactic Acid Bacteria Isolated from Equine on Salmonella-Infected Gut Mouse Model. Probiotics Antimicrob Proteins. 2021; doi: 10.1007/s12602-021-09841-0.			
2. Qin S, Huang Z, Wang Y, Pei L, <b>Shen Y*</b> . Probiotic potential of <i>Lactobacillus</i> isolated from horses and its therapeutic effect on DSS-induced colitis in mice. Microb Pathog. 2021; 105216.			
3. Pei L, Yang H, Qin S, Yan Z, Zhang H, Lan Y, Li A, Iqbal M, Shen Y*. Isolation and Evaluation of Probiotic Potential of Lactic Acid Strains from Healthy Equines for Potential Use in Salmonella			

Infection. *J Equine Vet Sci.* 2021; 96:103312.

4. Xia Y, Li H, **Shen Y\***. Antimicrobial Drug Resistance in *Salmonella enteritidis* Isolated from Edible Snakes with Pneumonia and Its Pathogenicity in Chickens. *Front Vet Sci.* 2020; 7:463.
5. Yang H, Zhang H, Tong X, Zhang J, **Shen Y\***. Recovery of chicken growth plate by Tanshinone II A through wnt/ $\beta$ -catenin pathway in thiram-induced Tibial Dyschondroplasia. *Ecotoxicol Environ Saf.* 2019; 183:109575.
6. Xia Y, Qin S, **Shen Y\***. Probiotic potential of *Weissella* strains isolated from horse feces. *Microb Pathog.* 2019; 132:117-123.
7. Yao W, Zhang H, Jiang X, Mehmood K, Iqbal M, Li A, Zhang J, Wang Y, Waqas M, **Shen Y\***, Li J\*. Effect of Total Flavonoids of *Rhizoma drynariae* on Tibial Dyschondroplasia by Regulating BMP-2 and Runx2 Expression in Chickens. *Front Pharmacol.* 2018; 9:1251.
